

## Corporate Buyer Account

### Benefits:

- Fast Reordering with Saved Shipping & Billing Addresses
- Discount Price Tiers based on Negotiated Rates
- Ability to Assign Employee Names to Each Item on Order
- Purchase on Credit (Purchase Order) if Required, Upon Approval
- Order History Lookup, UPS Tracking Lookup, Historical Invoices
- Low Maintenance, Saves Time & Paperwork the Buyer

### Program Example: Company XYZ

Company XYZ wants to initiate a safety program wherein a central buyer will handle the ordering for all employees. They want the ability to quickly place new orders when necessary without having to re-enter all of their shipping/billing information each time. They also want the best pricing available in the market and the ability order on credit (purchase order).

Company XYZ calls Steel-Toe-Shoes.com and requests a program with these features. Within minutes, Company XYZ will have a buyer account with premium discounts and upgraded features. Company XYZ can now use their account with all options except ordering on purchase order, which would become available after a quick credit check.

### Signing Up:
