Reason for Return/Exchange:

Make sure you have the best fit possible by following these guidelines.

- Test your new shoes on a clean, indoor carpeted surface to be certain you've got the right fit.
- Perform this test at the end of the day. Feet swell throughout the day and an end-of-day test ensures a proper fit.
- Wear your normal socks. The thickness of the socks you use will affect their fit.
- Problem fitting, try relacing your shoes.
- Still having a fit problem?
Return within 30 days for a full refund or exchange. (We require that all Returns and Exchanges be received in new clean condition without any sign of wear)

Your Shoes Fit If:

- You have a thumbnail's width between the end of your toe and the tip of the shoe.
- Your heel and instep are snug, but not tight.
- Your arch matches the shoe's arch pad.
